### Software Engineering

I'm Chamroeun. Currently I am a third-year student majoring in software engineering at Kirirom Institute of Technology. I'm seeking an internship that will allow me to develop and push myself in a working environment, particularly to obtain new experience. I enjoy challenging myself and being innovative.

English	50%

#### INTERNSHIPS

Fronted Developer and maintenance Chatbot 2019 - 2023  
**BITroom visual company**

During my first two years of college. My position in my virtual company is a website developer. Therefore, as a project and for my VC, I have created a bunch of websites. Using HTML, CSS, Bootstrap, JavaScript, and VueJs as well as PostgreSQL to access and stored data.

Fronted Developer 2023 - Present  
**Kirirom Institute of Technology**

I currently work as a frontend developer to create and maintain a reporting system that allows kit students to record their internship hours and descriptions, as well as monitor their information and performance related to their internship.

Training  
**Game Development and Electron App Development**

I used to attend two trainings, one for developing games with Godot and publishing them to the Play Store, and the other for creating window applications with electron js.

Training  
**Mobile Developer**

I used to work as a front-end developer on a recipe food app built with flutter. CookBook is the name of the app that is available on the Google Play store.

#### ACHIEVEMENT

- Top performance student of a subjects in Web/App development course
- Graduate at TUX Global
- Top 10 in Techo Stratup with BITroom visual company
- Used to be IT support during SEA Game 32nd
